# Forward-looking statements and non-GAAP financial measures

### **Forward-Looking Statements**

The forward-looking statements in this presentation reflect management's expectations about future events, plans and performance, which may include the prospects of and priorities for driving growth and expected mutual fund performance following planned fund mergers. These forward-looking statements and the many assumptions upon which they are based involve risks and uncertainties which could cause our actual results to differ materially. A list of factors that could cause actual results to be materially different from those expressed or implied by any of the forward-looking statements referred to in this presentation is detailed under the heading "Forward-Looking Statements" in our February 2, 2011 earnings release and under the heading "Risk Factors" and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2009 and in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2010. These forward-looking statements speak only as of today's date and we undertake no obligation to update publicly or revise them for any reason.

### **Non-GAAP Financial Measures**

This presentation contains certain non-GAAP financial measures that our management feels best reflect the underlying performance of our operations. Reconciliations of such non-GAAP financial measures to the most directly comparable GAAP financial measure have been provided along with the presentation.
